## Quiz/Exam Corrections for Science

To improve your quiz/exam average, you should submit the following within one week of getting your quiz/exam back. (See Engrade for due dates.) You will earn back half of the points you lost. ***This is an optional assignment, but strongly suggested if you scored below a 65 on any quiz or exam.***

What to do to get half of your points back:

1. **GET IT SIGNED:** I need to see your quiz signed by your parent/guardian.
2. **REVIEW CONTENT:** Discuss your responses with your group and find the correct answer. Explain why that answer is correct. Define all vocabulary words in the questions and answer choices that you got wrong. (These words can be academic and/or science vocabulary words.)
3. **REFLECT:** Tell me why you think you got the question wrong. Possible reasons could be, but are not limited to:
  - I didn't study this information.
  - I didn't understand what the question was asking me.
  - I didn't study at all.
  - I made a careless mistake.

*A template for corrections will be available upon request or on my website.*

How your new grade is calculated:  $100 - \text{your score} = \text{points lost}$        $\text{points lost} \div 2 = \text{points earned back}$

Example: Your score = 50% --->  $100 - 50 = 50$  points lost --->  $50 \div 2 = 25$  points earned back

NEW GRADE = 75%

**\*\*Please be aware that "extra credit" is NOT offered at the end of the marking periods. In my experience, students who hand in all assignments on time and do quiz/exam corrections earn passing grades. If you complete corrections and submit a study guide the day of the quiz/exam, you can earn some extra points at those times.\*\***

***Please review this document with your parent/guardian and have them sign below. You will keep this document in your binder.***

- I understand that my child will be given the opportunity to earn back points on his/her quizzes and exams by completing corrections.
- I understand that this opportunity is optional and it is up to my child to be proactive and hand in corrections within one week of getting his/her quiz back.
- I understand that make up assignments and extra credit will not be given to students at the end of the marking period. *(If a student is absent with a parent note or doctor's note explaining the extenuating circumstances, make up work **will** be provided.)*
